## Survey

Sheds generally conduct *three main categories of activity*:

- Personal projects
- Shed improvement projects
- Community involvement projects

Members will be welcome to be involved in any or all of these according to their own capability or interest. Alternatively, just to come to the shed and have a chat with friendly guys as they go about their tasks or share a bit of company, either over a cup of tea/coffee or working on a project.

Good health is based on many factors including feeling good about yourself, being productive and valuable to your community, connecting to friends and maintaining an active body and an active mind.

Therefore, the Committee would like to get an appreciation of what is of interest to the members.
