PLEASE NOTE

The VMSA has received a number of queries and requests to find an avenue where sheds can easily list and advertise surplus items they have, that they wish to donate to other sheds, or to promote activities that the shed are involved in - such as market days, or fundraisers.

The VMSA has recently created and trialled a Facebook page, "VMSA Public Notices". This is now available for all sheds and shedders to join, and to place your ads and info on. Please note this is not the avenue if you wish to sell your surplus goods, it is only if you want to donate goods.

The VMSA now has a Buy/ Swap and Sell Page on its website for shedders to use.

VMSA EXECUTIVE OFFICER'S REPORT

Hi Folks,

The VMSA was very fortunate to be given a 2nd year fixed contract for the VMSA Field Officer which culminated in September 2019.

Phil Keily did a great job and the report to Government based on the work will be released soon.

The VMSA has lobbied long and hard for Field Officers to support sheds state-wide, and we think it will happen soon.

The VMSA has sourced almost \$100,000 of free tools, equipment and materials for our sheds. Sheds have used the free material to build hundreds of items for their communities. The free tools and equipment have saved sheds tens of thousands of dollars in not having to raise fund. This money they saved has meant the difference between just coping and to being able to plan for the future.

Overall shed membership is expanding across sheds, the membership of sheds state-wide is fast approaching 20,000.

It is important to recognise the contribution of the Victorian Government and the Department of Health and Human Services.

The Strengthening Men's Shed Grant have been instrumental in building and sustaining sheds for many years. Sheds that previously were only open 1 or 2 days are expanding their opening times to include more days, weekends and even nights.

It is increasingly difficult to satisfy the growing needs of sheds and shedders. The VMSA has been delivering a suite of training opportunities to sheds across the state. We have qualified trainers who have been delivering training in a wide variety of areas.

The programs are designed to develop skills and practices for shedders in Fundraising, Governance, Shed Safety and Welfare / Wellbeing. modules available and roll them out to all sheds that want these trainings.

I have always felt privileged to be involved with men's sheds.

Recently, I had a very special experience. I was at a dinner party, and I was wearing my VMSA shirt. A lady across the table put her hand on my arm and said, "I want to thank you for making the caskets for babies, I lost a baby this year and it helped us a lot."

I was quick to explain the people she really wanted to thank were the members of Croydon Men's Shed. I gave her their number and she called them the next day. See what I mean! It is a privilege to be amongst such wonderful shedders.

Ric Blackburn VMSA Executive Officer Email: vmsa@vmsa.org.au

The VMSA hopes to improve and add to the training

LADIES, IT'S TIME FOR A BREAK!

The Twin Rivers Mens Shed Association together with the East Gippsland CWA Group are holding a "Take a Break" event for ladies and friends in East Gippsland on Tuesday, 29 October at the Johnsonville Hall from 11am to 3pm.

The event is being sponsored by the Victorian Farmers Federation "Look over the Farm Gate" and organised by the Twin Rivers Men's Shed Association (TRMSA) as a way of supporting our local community and farmers in these tough times of prolonged drought.

The CWA ladies have kindly agreed to provide refreshments and a light lunch, free of charge, to the attendees. Ladies and partners may drop in for a cuppa and a chat.

A number of quilts by the Riviera Quilters and a range of beautiful bags made from re-claimed materials by the Twin Rivers Lions Club Boomerang Bag sewers will be on display on the day. The East Gippsland Shire Council Drought Assistance Officer, Blanche Evans, will be available for a chat as will representatives from La Trobe Community Health Service, ADRA and St Vincent de Paul. Information from the VFF will also be available.

This event will be followed by a free Community Family BBQ day at the Johnsonville Hall on Sunday, 10 November from 11am to 3pm.

THE BIG DRY

Like anyone who has lived in this country for a few years, I have seen my fair share of droughts but this one is of real concern.

Lesley and I have just returned from a trip up north. We were invited to a function on the Gold Coast so we hitched up the van and made a trip of it.

After visiting our son and his family in Albury, we went via Young, Wellington, Gunnedah and over to Coffs Harbour then on to the Gold Coast.

We couldn't help but noticed that between Young and Gunnedah the land has been destroyed by the drought. Top soil has been blown away, some over Canberra, and the landscape looks like a gravel pit. It will take a generation to make this land viable for grazing stock and longer, to grow a crop. From Gunnedah to the coast is called the Waterfall Way but there are no waterfalls as they have not had rain for several years now.

The river, on Mt Coot-Tha just outside Brisbane is rarely dry. It has been dry long enough for grass to grow. They have had only a few millimeters in the last few years.

After the function at the Gold Coast and everyone had gone home, Lesley and I went for a walk in the Lamington National Park hinterland. We both remarked how dry it was and that a stray match would be blow into a firestorm.

We had moved on to Brisbane when the fires started.

Lamington is described as a 'Gondwana Rainforest of Australia World Heritage Area'. Not anymore!

Greyhound Adoption is a great way to get a friend for life; visit gap.grv.org.au

THE BIG DRY

This also will take many years to return. The Glass House Mountains area was just as dry and they had fires while we were there. We moved on to Hervey Bay and then to 1770, and there was very little smoke.

As we drove into Rockhampton, we saw a large fire in the distance. It turned out to be Mt Archer National Park just behind our caravan park. We had intended walking some of this area. There are some lovely caves and walking tracks there. Needless to say, it was closed by the fire authority and the deliberately lit fire is expected to continue for at least another month.

Along with the smoke we had a lot of dust because there was little grass or ground cover. At its peak there were 85 fires burning in Queensland state. New South Wales was as bad! Normally, the Queensland fire authority does cold burns up until the start of September. Due to the drought they have not been able to carry out burns since June.

We felt guilty being in these areas where there was little water and we were showering, washing clothes and doing our dishes. Our concerns were allayed several times when the local mayor or politician said in interviews that they can always truck water in but we need the traveller's dollars.

Some towns are constructing several one million megalitre tanks to store trucked in water because the long-range forecast says no rain. Many of these areas have not had more than the odd shower for over three years. Local farmers have checked several generations of rain records and they have never seen it this bad before and the future of many small towns and farming communities seems bleak.

We decided to head home and came home on an inland route where there were no fires but just as much dust.

Next time you look out the window and see that you need to mow the lawn and it has just started raining, don't complain.

PROJECTS AT DROUIN MEN'S SHED

New Star in the Shed...

It's Werner Lochki's 'Thunder Down Under' boxes, or toilet roll holders. Found by accident (Werner had one at home), Werner thought he'd make one or two for the shed to sell. They were sold out even before they were finished. We now have bulk orders for retail outlets in Walhalla and Drouin and of course, from other members.

If you'd like one for a gift for Christmas, perhaps it would be a good idea to order yours now, or you'll miss out! A very good job there, Werner! Keep it up, brother!

Herb Gardens

It's Spring! The birds are tweeting and bees are buzzing, flowers and vegies are starting to bloom. Why not grow some beautiful herbs to add to your dinner delights in your own mini herb garden?

PROJECTS AT DROUIN MEN'S SHED

Keith Walker has been knocking these up for the shed for a few years now and are selling for a mere \$60 each. The foodies in your family will love them.

File Picture

Keith got the idea when he saw a flimsy metal one at a market and his wife, Joyce, liked them so he built her a couple. Who said he's a grumpy grandpa? He's really soft and cuddly, just don't tell anyone. If you want one go and see the guys in the Drouin Men's Shed office, they'll look after you.

Christmas Tree

With Christmas around the corner, it's nearly time to start thinking about your decorations. Here's just a friendly reminder about our wooden Christmas trees. There're now complete with solar LED lights.

They're made to order, and you have until the 1 December to order yours. After that, the book shuts and you'll miss out. They cost only \$60 each, they're an absolute steal.

These trees are made from treated pine and so will last for years.

A man died and went to Heaven. As he stood in front of the Pearly Gates, he saw a huge wall of clocks behind him.

He asked, "What are all those clocks for?"

St. Peter answered, "Those are Lie-Clocks. Everyone who has ever been on earth has a Lie-Clock. Every time you lie, the hands on your clock move."

Man: "Oh! Whose clock is that?" St Peter: "That's Mother Teresa. The hands have never moved, indicating that she never told a lie."

Man: "Incredible! And whose clock is that one?"

St. Peter: "That's Abraham Lincoln's clock. The hands have moved twice, telling us that Abraham told only two lies in his entire life."

Man: "Where's Donald Trump's clock?"

St. Peter: "We're using it as a ceiling fan."
